

A KID. A MATTRESS.
ONLY ONE SHOULD BE A SPONGE.

Kids should be absorbing all the influences from the wonderful world around them. Mattresses should not. The companies who understand this protect their mattresses with the clean comfort of Crypton Super Fabric.

They include:

DESIGNERS AND SPECIFIERS FROM
BUCKINGHAM PALACE TO THE WHITE
HOUSE AGREE: **CRYPTON SUPER
FABRIC IS OUT OF THIS WORLD.**

At Crypton, we are celebrating over 15 years and 70 million yards of stain-free success. With our patented, specially engineered fabric system, we promise – and deliver – permanent performance. We are proud to say that our products show up (and work hard) everywhere from Buckingham Palace to McDonalds, Hilton Hotels and the White House. Crypton has truly changed the way the world lives.

Now, we've changed the way the world sleeps with our innovative Crypton Super Fabric. We've engineered mattress solutions that are clean and disinfectable enough for the most exacting hospitals and hotels, yet soft and breathable enough to sleep a hot summer night away.

Crypton Super Fabric refuses to stain, it's a permanent barrier against moisture, mold and mildew and other allergens. And even the tiniest of mites can't live on Crypton. Live Clean™. Live Green.

Crypton Fabric can be used with Simmons® revolutionary EverNU™ tops which are replaceable and renewable on each mattress. This truly adds to the comfort life of the mattress.

Crypton designs and manufactures environmentally responsible performance fabrics and furnishings.
